THE ROAD TO HEALTH!
HOLLOWAY'S PILLS.

CURE OF A DISORDERED LIVER AND BAD DIGESTION.

Copy of a Letter from Mr. R. W. Kirkus, Chemist, 7, Prospect Street, Liverpool, dated 6th June, 1851.

To Professor Holloway.

SIR,—Your Pills and Ointment have stood the highest on the list of Proprietary Medicines for some years. A customer, to whom I can refer for any enquiries, desires me to let you know the particulars of her case. She had been troubled for years with a disordered liver, and bad digestion. On the last occasion, however, the virulence of the attack was so alarming, and the inflammation set in so severely, that doubts were entertained of her not being able to bear up under it; fortunately she was induced to try your Pills, and she informs me that after the first, and each succeeding dose, she had great relief. She continued to take them, and without she used only three Boxes, she is now in the enjoyment of perfect health. I could have sent you many more cases, but the above, from the severity of the attack, and the speedy cure I think, speaks much in favor of your astonishing Pills.

(Signed) R. W. KIRKUS.

AN EXTRAORDINARY CURE OF RHEUMATIC FEVER, IN VAN DIEMEN'S LAND.

Copy of a Letter inserted in the Hobart Town Courier, of the 1st March, 1851, by Major J. Welch.

Margaret M'Cunnigan, nineteen years of age, residing at New Town, had been suffering from a violent rheumatic fever for upwards of two months which had entirely deprived her of the use of her limbs; during the period she was under the care of the most eminent medical men in Hobart Town, and by them her case was considered hopeless.—A friend prevailed upon her to try Holloway's celebrated Pills, which she consented to do, and in an incredible short space of time they effected a perfect cure.

CURE OF A PAIN AND TIGHTNESS IN THE CHEST AND STOMACH OF A PERSON 81 YEARS OF AGE.

From Messrs. Thew & Son, Proprietors of the Lynn Advertiser, who can vouch for the following statement—August 26, 1851.

To Professor Holloway.

SIR,—I desire to bear testimony to the good effects of Holloway's Pills. For some years I suffered severely from a pain and tightness in the stomach, which was also accompanied by shortness of breath, that prevented me from walking about. I am 81 years of age, and notwithstanding my advanced state of life, these Pills have so relieved me, that I can declare that others should be made acquainted with their virtues. I am now rendered, by their means, comparatively active, and can take exercise without inconvenience or pain, which I could not do before. (Signed)

HENRY COE, North street, Lynn, Norfolk.

DR. FOXTAINE'S BALM
—OF A—
THOUSAND FLOWERS.

For the Toilet, the Nursery, for Bathing, and other Domestic Purposes.

HIGHLY perfume; by its own ingredients. Recommended by the faculty of almost every European city, and established under the patronage of almost every Physician in London and Paris, as the most of individuals, who make daily use of it in New York, Philadelphia and Boston—it is the greatest luxury a lady or gentleman could wish for the perfect enjoyment of health, for comfort and personal embellishment and its delicate soothing sensation, and delightful softness it imparts to the complexion.

We give a few of the prominent properties of the

Balm of a Thousand Flowers!

Already well established by actual experience.

FIRST—*Tans it from whatever degree of the Complexion.*

And cast it like in its usual Beauty and Health, as the time when built, by the changes of age, or freaks of nature, or disease, have been obscured and/or created—it clears the skin, and draws to the surface all impurities, and every species of pimples and blotches; also removes tan, sunburns, yellowness and freckles, imparting to the skin its original purity, so I am assured freshness, rendering it clear as to, and white.

SECOND—*It promotes the Growth and increases the Luxuriance of Hair, curing the Curl in the most natural manner.*

It clears the head from dandruff, giving vigor, health and life to the very roots of the hair.

THIRD—*It is a superior article for Shaving being superior to all descriptions of Soaps, Creams, Pastes, &c.*

As a DENTRIFICE for cleansing the Teeth, it is by far the most emphatical of any compound yet discovered, preventing decay, relieving pain, adheres and cleans, and renders the teeth as white as alabaster. For bathing, for suffering infants and for adults to promote sweetness of body, cleanliness, health and strength, and to prevent eruptions, &c., there is no article more suitable than this BALM. It may be used in either warm, hard or soft water.

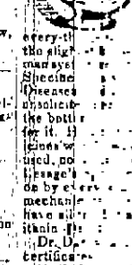
Lesage's Specific,



NEVER failing remedy for *speedily eradicating diseases of the Urinary Organs*, such as Gonorrhœa, Gleets, Whites, Stricture, Stone in the Bladder, &c., and needs but to be used to be universally received. The proprietor would specifically caution those troubled with the above annoying complaints to beware of those quack principled individuals, without the knowledge of the structure of the human system, and for every disease. Lesage's Specific is the only true and infallible remedy for the cure of Private Diseases that have ever been sent to the afflicted. Thousands that have sent, they have found it the greater, is the demand for it. It is also unequalled for its efficacy, while from the various quack medicines which have been used, no unhappy patient has ever been known to complain after he has once made trial of it. Lesage's remedy depended on by every one, the lawyer, the merchant, and the dashing young man, have found it truly the good Samaritain in their trouble.

Dr. Lesage's Specific is composed entirely of extracts from some of his certificates.

☞ New Hampshire is claimed by the loco leaders and the loco press as the model State for Democracy and the selection of General Pierce as the Presidential candidate is said to have been as a special compliment to that State

In connection with these pretensions it should be remembered that this Simon Pure Democratic State of New Hampshire is the only State that now preserves in its statute book laws imposing political disabilities upon its citizens of the Catholic faith, and that Franklin Pierce the Democratic nominee for the Presidency, is and has long been an influential leader of that dominant party in the State These are facts that admit of no explanation or denial

The constitution of New Hampshire was adopted in 1792 and the late Gov Pierce, father of Gen Franklin Pierce, was a member of the convention which framed that instrument, and he seems to have favored the anti toleration test in the constitution as he did also the Alien and Sedition law of the elder Adams as is proved by his vote in that State Legislature in 1799 approving of that measure

The Phonetic Advocate.

It ought to be generally known that the labor of writing and printing is so very much abridged by the new system of Phonography and that the acquisition of orthography is so greatly promoted by it the School Committees of several of the cities have caused the art to be taught in their best public schools The friends of the system feel greatly encouraged at their progress They have been very earnest and faithful in keeping the subject before the people by periodical publications pamphlets and books

Among the most popular and interesting publications is that of the "Weekly Phonetic Advocate, published by Langly & Brothers, at Cincinnati, Ohio, at $1 50 a year This paper is published in true Phonetic type, and is specially devoted to the promulgation of the system It is conducted with great ability and all who are interested in the subject should give the Advocate the benefit of their support

William Bartlett, Esq, of this city teacher of Phonography will receive subscriptions and attend to having the paper duly forwarded.

☞ In the city of Augusta, Me, some half a dozen stores were broken into and robbed on Monday night On Tuesday morning City Marshal Jones got an eye upon two suspicious characters, who were about to depart in the "Eazer He took them into custody, and found in their possession a small portion of the stolen goods Their names were John B Hall and William Freeman

Many robberies have recently been committed in Portland and Bath, and some of the scamps are in limbo There is believed to be a regularly organized gang throughout the State

☞ A gentleman from Maine, on a visit to Charleston, S C, writes in the *Christian Mirror* that there are five thousand Methodist colored communicants in and near Charleston, and their contributions for benevolent purposes are more liberal than any free congregation at the North gives

☞ Whilst the King of Prussia and the Empress of Russia were at Coblentz, a butcher presented them with a sausage thirteen feet long, containing all sorts of sausage meat, and terminating with a pig's head Their Majesties laughed heartily at the strangeness of the gift, but kindly accepted it.

The Cholera.

In Rochester, New York, the Cholera has made fearful work It is said that the city is in a most disgraceful state, with filth and nuisances of every sort. In many places the stench from putrid animal and vegetable matter is intolerable A sewer at the corner of North Paul and Main streets would fill with stench a whole city of ordinary size. Can it be wondered at that sickness is prevalent?

On the 3rd, 26 cases reported, 8 terminated fatally on the 5th, 24 cases, 19 deaths, six of the deaths in one house.

The disease seems to be on the increase—Many stores in some sections of the city are closed, the occupants having gone to the country to escape the epidemic There is considerable excitement

WAVERLEY NOVELS *Library Edition* Boston S H Parker and B B Mussey & Co—1852

We have received from the enterprising publishers of this excellent edition of the Waverly Novels the 3d and 4th volumes, containing the Antiquary and Rob Roy

By the publication in a substantial and not over expensive style of these novels, they will be re read by thousands of persons, and many private libraries will be furnished with them on good paper in a fair and comfortable print, and in a comely and agreeable form

Mr David Bugbee, of this city, has a supply of these volumes at his bookstore, for furnishing customers in this vicinity.

☞ The New York Express states that there has been a gradual advance in the prices of pork and beef in that market for several weeks past and that figures, as now quoted in the daily commercial report, are higher than they have been for twenty years past The stock on hand just now is said to be very light but the advance is not attributable to this fact so much as to an inadequate supply from the West Since last spring mess beef has gone up from say $1 to $9,60 and mess pork from $14 to $20—The export to Europe, we believe, is not much greater at present than is ordinarily the case

☞ It is stated that Mr Webster and Mr Crampton will return to Washington within a week The fishery question has been temporarily settled Mr Crampton has sent a dispatch to the British Government, urging them to suspend their orders and to withdraw their naval forces

☞ Some men devote themselves so exclusively to business, as to almost entirely neglect their domestic and social relations A gentleman of this class having failed, was asked what he intended to do "I am going home to get acquainted with my wife and children, said he

☞ The Chelsea locofocos, in forming a Granite Club, made Mr O E Ayers, a leading free soiler one of the officers He declines the honor, and asks the Commonwealth to say that he does not train in that company

☞ Marshall Cram, Esq, of Bridgton was nominated as the Whig candidate for Congress in the second Congressional district, by the convention at Auburn on the 4th inst.

☞ A Washington despatch reports the sudden and dangerous illness of Hon, Robert Rantoul, Jr, requiring the immediate attendance of Mrs. Rantoul at Washington

A WHITE SLAVE was seized and made away with at Concord, Massachusetts, on Monday last.

☞ There was a tent full of democrats from Cumberland at Niagara, who have renounced their party affinities and go strong for Scott

☞ Cholera has made its appearance recently in portions of Ohio, Pennsylvania and Western New York, particularly in Buffalo and Rochester

☞ Charles Carey, of Nashua, New Hampshire was shot while gunning near that place, on the 6th inst. He died in a few minutes

☞ Thanks to Capt. Pearson of Carr's Express, for papers received Saturday in advance of the mail

☞ The newspaper press in the British Provinces is crowded with articles upon the Fisheries The Royal Gazette (Charlottetown, Prince Edward's Island,) on the 19th of July issued an extra of four solid columns on the subject, the contents mainly being official documents sent from the Government House of this island to Earl Grey, and a petition to the Queen—The Editor, in introducing them to the public, says

"There can be no doubt that the admission of Americans to a common right of fishing might be advantageous, provided the United States would in return admit our fish, agricultural produce, and colonial built ships into their ports free of duty But to surrender a privilege so highly desired by the inhabitants of Maine and Massachusetts, who send annually about 3000 sail to fish on our waters, while they adhere to their restrictive Tariff and heavy, if not prohibitory duties, would be unwise and impolitic. The better policy for us to adopt, in order speedily to obtain "Reciprocity in Trade," with the United States, is to enforce strictly our legitimate rights, and to compel the Americans to keep within their prescribed limits of three marine miles This vantage ground ought not to be yielded, unless it be paid for with reciprocal concessions,"

The official correspondence is in the spirit of these few remarks.

NEW ORLEANS, August 3.

The *Picayune* of this morning contains later advices from Fort Smith, Arkansas, which confirms the massacre of Capt. Marcy and men by the Indians

Gen. Pierce and his New Boston Speech.

The Washington Republic of Thursday, contains several documents in regard to the correctness of the published report of Gen Pierce's New Boston speech in January—that report which represented him as saying he 'loathed the fugitive slave law,' that it was opposed to "moral rights, &c." First, we have the affidavit of the Rev. A T Foss, a Baptist or Methodist clergyman, who states that he attended the meeting for the purpose of reporting the speech, and did report and publish what Gen Pierce said of the fugitive slave law—that he distinctly recollects the speaker's saying that he "loathed the fugitive slave law, with similar expressions. Next comes a letter from John H. Goodale, Esq, of Manchester, who states that the accuracy of the report was never called in question, by any paper, in or out of New Hampshire (and by no member of any party,) till within a few days, by the Washington Union, and that "it would have been folly to have published any other than a true report of a speech which was listened to by hundreds." Mr Goodale says in the course of his letter—"in order to regain their power with the people, Gen. Pierce and his friends, after the election, took especial pains to represent to the leading anti compromise (democrats that the feelings in regard to the inhumanity and wrong of the fugitive slave law did not differ in the least from those who had supported Mr. Atwood but that, for the sake of the Union and the fulfilling the compact of the constitution, they deemed it best to acquiesce in it. We then have a letter signed by Messrs. Tuck and Perkins, members of the House from New Hampshire, in which they bear testimony to the standing and character of the Manchester Democrat and the Independent Democrat—the papers which first published the report of Gen Pierce's speech)—and rebuke the attempt of Messrs Norris, Harry Hibbard and Mr Peaslee to discredit those journals or their conductors. They say "if Gen Pierce stands as unimpeachable in morals and integrity, as does G[illegible], (editor of the Independent Democrat) he possesses a reputation against which mendacity and malignity are fated to throw only harmless weapons.

It is not to be denied that this New Boston speech has produced a profound sensation throughout the South Not a paper comes to us from that section which has not a column or more upon the subject. The question is asked, and repeated in all of them, why the accuracy of the published report of the speech was not denied at the time—instead of a denial at this late hour being put forward by interested parties, and it is urged that all the circumstances of the case go to show the report authentic.—Certainly, it is not easy to see what motive the editors of the two journals above mentioned, or the reporters, could have had to misrepresent Gen Pierce upon such a subject of all others. Their party affinities and interests would rather to have inclined them the other way, that is to say, they would have suggested them to represent him as strongly in favor of the fugitive slave law. It was for their advantage to do so, in order to prevent the Atwood men from supporting the regular democratic ticket. On the whole, we cannot see how any one, taking into account all the circumstances, and the evidence adduced by the Republic, can come to any other conclusion, than that Gen Pierce, for certain political ends, that is, to draw over to his party, those who supported Mr Atwood, did make the statements, in opposition to the Fugitive Slave Law, which he is charged with having made It is not strange that the people of the South should express some dissatisfaction at what has the appearance of duplicity, and that some other journal calls it "double-facedness on the part of the Democratic candidate—but it is strange that the Northern Democratic press should make such an ado about the matter, when every new attempt on their part at explanation, serves only to bring out additional proof of the substantial accuracy of the report of the New Boston speech

[Lowell Journal

☞ The New York Times says that a modern error is that people can do with too little sleep The Chester (Pa) Republican having said that Gen Scott was in the habit of only allowing himself five hours for sleeping out of every twenty-four the Times replies

"We know not with how little sleep the gallant old general, with his habits of the strictest temperance and clock like regularity, can manage to sustain his strength, but we are quite confident that the present generation of young men do not sleep enough and that the example of famous, wise, and good men, who have achieved most of their greatness has contributed materially to establish this practical error In these stirring times, sleep has come to be regarded by too many who need its soothing medication as a "thief of time, and a bed fellow of sloth *Work, action, energy*, are watchwords given us when we leave the nursery, and that sleep the safest, cheapest, and most invaluable of all modes of rest, is very generally undervalued"

The merits of General Pierce are being gradually developed The subjoined fact can not fail to make an impression. It was gravely announced by Charles L. Woodbury President of the Granite Club of Dedham, Mass, at a recent Convention in that place

"Gen Pierce is a man who was educated like them (the members of the Granite Club" in the common schools of New England—*who took his whippings with other boys* and was taught by the same school ma'ams

It was certainly considerate in the Locofocos to select, as a candidate, a gentleman who, when young, "took his whippings like other boys" He will stand the 'whipping which awaits him in November the better for being used to it. Gen, Scott never *would be* whipped It may have been a weakness in him, but the fact is undeniable He never *could* be whipped, and it has not left to the man who took his "whippings," as coolly as Gen Pierce is said to have done, to do what "all creation" has hitherto failed to accomplish —Alb Jour.

Matters in Congress—The Fisheries—The Steamboat Bill—Receipts of the Government.

WASHINGTON, Aug 5th

The Senate Committee on Public Lands resolved this morning to report against the homestead bill and Bennett's land distribution bill Borland and Dodge voted in favor of the former, and Felch, Pratt and Underwood against it.—Pratt and Underwood were in favor of the latter, while Felch and Dodge opposed it.

Mr. Crampton, the British Minister, has directed Admiral Seymour to make no more captures of fishing schooners until further notice.

Mr. Seymour, Chairman of the House Committee on Commerce, it is said will not report the Senate bill for the better security of life in steamboats, because he is overwhelmed with protests and objections of eastern owners.

The receipts of the last fiscal year amounted to $49,250 000 The custom house included, $47,000,000, the public land, over $2,000,000, and other sources about $750,000. The surplus of the year will be about $4,500,000.

Education.

BY J BOWRING

A child is born—now take the germ and make it
A bud of moral beauty Let the dews
Of knowledge, and the light of virtue, wake it
In richest fragrance and in purest hues [it,
When passion's gust and sorrow's tempest shake
The shelter of affection ne'er refuse,
For soon the gathering hand of death will break it
From its weak stem of life, and it shall lose
All power of charm but if the lovely flower
Hath swelled one pleasure, or subdued one pain
O who shall say that it hath lived in vain,
However fugitive its breathing hour?
For virtue leaves its sweets wherever tasted
And scattered truth is never, never, wasted

CONGRESS.

WASHINGTON, August 5

In the Senate Mr. Bright moved and all business was suspended, in order to take up the message of the President, on the subject of the Fisheries

Mr Hamlin resumed the speech commenced by him on Tuesday, he examined in great detail the extensive interest engaged in the fishery—also tables of statistics of tonnage of vessels, and the number of men employed, the quantity of fish caught and imported, and the localities of such catching and importation &c

Mr Hamlin continued his remarks till nearly 2 o clock, urging the claims of the American fisherman for protection in the rights they have hitherto enjoyed, then closed his remarks, saying in the words of Mr Webster, "stand by the fishermen in their just rights—protect them at all hazards—secure them in what belongs to them and protect them, hook and line, bob and sinker"

Mr Soule said that he desired to say something on the subject. It was desirable that the papers should be printed He therefore moved that the message and documents be printed, and that the subject be postponed till Thursday next

The motion to postpone was agreed to—all documents now communicated and those sent to the Senate in 1845, were ordered to be printed

Mr Adams offered a resolution that the Senate hereafter meet at 11 o'clock—laid over

The Indian Appropriation Bill was taken up The amendment pending was to strike out the appropriation of $60 246 to be paid to the Shawnees for lands of theirs sold in Ohio

Mr Sebastian moved to insert, in lieu of what was ordered to be struck out, that the sum be appropriated, but not to be paid to the Indians unless the Attorney General shall be of opinion that it is justly due

A debate took place in which Messrs Sebastian Atchison Bell, Underwood and Walker, took part, which was continued until 20 minutes past 4 when, without taking any question, the Senate adjourned,

The House proceeded to the consideration of the bill regulating the cost and fees of Attorneys, Marshals and Clerks of the Circuit and of District Courts

Mr McLanahan, after saying the attempt to treat a subject like this with flowers of rhetoric would be as labor in vain as to render a skeleton attractive by placing on its brow a diamond, proceeded to point out the effects of the present fee system, showing the increased expenses of the Judiciary within the last fifty years.

The bill would reduce the expenses, and could not fail to be approved by every intelligent man. No question was taken up to the expiration of the morning hour when the House went into Committee on the General Appropriation Bill.

Mr Jones of Pennsylvania, offered an amendment, that hereafter, in the assessment of duties, it shall be the duty of the Secretary of the Treasury, to ascertain and establish the actual average value or wholesale prices, in the principal markets of the United States, commencing with the fiscal year ending 30th June 1852 of pig iron, wrought, manufactured by rolling or hammering, and of iron rivets spikes chain cable, and glass, and upon such ascertained and established values to levy, or cause to be levied, the ad valorem duties by law, any provision by law or otherwise to the contrary notwithstanding, provided that such other goods, wares or merchandize, now or hereafter subject to any ad valorem duty, as the Secretary of the Treasury may from time to time specify by public circular, to be published at least six months before it shall go into effect, shall be subject to the same mode of annual average valuation as the aforesaid

The Chairman, Mr Phelps, ruled the amendment out of order, on the ground of irrelevancy.

Mr Jones appealed, but the Committee sustained the Chair—yeas 67, nays 64

Mr Houston reported an amendment, appropriating $27 000 for the outfit of Ministers to London, Berlin and Mexico He caused a letter from the State Department to be read, in which it stated the Ministers to those places have asked and obtained permission to return home, and the amount was necessary to send out their successors. The amount was from $5000 to $6000

Mr Bailey of Kentucky, on the unanimous recommendation of the Committee on Foreign Affairs, moved an amendment, appropriating $18,000 instead, for the salary and outfit of the Commissioner to China. He remarked, that the President, in his annual message, said that this office had been going a begging. As we had acquired new territory on the Pacific, and as a new career in commerce is opening, he knew of no country in which it was so important to have an enlightened man of ability as in China. There were no such attractions there as in the capitals of Europe, and it was a matter of patriotism for a gentleman to accept this station. Therefore the salary ought to be increased.

Mr. Houston concurred in the last remark, but hoped the Committee on Foreign Affairs would have presented some other plan for the compensation of foreign Ministers. He deprecated the coming home of foreign Ministers a few months only before the present administration expires, the United States requiring the sending out of others in their places. This was an evil, which, however, did not commence with this administration. On the contrary, he knew the President had refused to allow [illegible] for certain Ministers to come home.

Mr. Stanton raised a question that the amend-

ment was not in order—the Constitution saying that no Senator or Representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States which shall have been created, or the emoluments whereof shall have been increased, during such time, and no person holding office under the United States shall be a member of either House during his continuance in office This was understood to be aimed at Humphrey Marshall, late of the House, just appointed to the post

The Chairman said it was not for him to decide the constitutional question. That was for the Judiciary

The amendment was agreed to.

Mr Hellard moved an amendment, which was rejected for an increase of the salary of the Minister to Turkey to $9000.

Various amendments of no general interest were discussed, and the House adjourned.

Bangor Air-Tight COOKING STOVE
THE best Cook Stove ever introduced to this or any other people. Having secured the sole agency of this very desirable Stove, I take great pleasure in offering it to my customers and the public. This Stove was invented expressly for this eastern market, by those experienced and expert Stove manufacturers Messrs. Easten & Whittier, who know, and have appreciated the wants of this enlightened people. It is now offered to the public with the fullest confidence in its merits, and its superiority over every other Cooking apparatus ever introduced. Its conveniences for Boiling, Broiling, Frying, &c., are not surpassed, and its extensive and beautiful Oven for Baking and Roasting, will at once recommend itself to the Ladies. One very important feature is, it has very stout and smooth castings, and being manufactured in this city, can at all times be repaired, if ever necessary, at a trifling expense without subjecting one to wait for castings to be ordered from New York, Rhode Island, or elsewhere. Every Stove is warranted one year, and one not giving entire satisfaction may be returned and the money will be refunded after 30 days trial.

25,000 Sold per Year!
The Unsurpassed and Unsurpassable **Bay State Stove,**
OF SIX SIZES, of heavy and smooth castings—price from $15 to $50—celebrated for its whole cooking apparatus, carrying off the smoke in broiling, and not to be exceeded in baking, frying, boiling, &c, &c., or in durability and economy—may be had, as heretofore, at the well known and long established
Stove, Furnace and Range DEPOT, Nos. 80 & 82 MAIN STREET, and 2 and 4 WALL STREET, OF **N. JOHNSON,**
Who is SOLE Agent, and always has been, for this market, for the sale of the celebrated Stove above named, of which 25,000 were sold the past year, and of which some 30,000 will not be more than sufficient to supply the demand the present year.
The BAY STATE is sold and warranted as usual. Returned after an unsatisfactory trial of 30 days, the price paid will be refunded, together with interest and cost of returning.
Persons purchasing the BAY STATE, and desiring repairs, are not subjected to the trouble of sending to Rhode Island or New York for castings, nor to wait in Bangor for them. AS I HAVE THEM ON HAND!
A CHALLENGE OF $50
Is proposed, that 50 Stoves of six sizes, of any other pattern than the BAY STATE, (for which I am sole Agent,) cannot be produced which will compare with the 50 I now have on hand, in thickness and smoothness of Castings, or in facility and capacity of broiling, baking, boiling, or other cooking requisite.
☞ The public are specially requested not to mistake a Stove called the "IMPROVED" BAY STATE, which is a cheaper and inferior article, of thinner and less durable castings, and which is sometimes advertised without the word 'Improved' as a prefix, for the original and genuine BAY STATE, which has been so generally and thoroughly tested and admired.
All other kinds of STOVES constantly on hand, as above, which will be sold at reduced prices. N. JOHNSON, *Nos. 80 and 82 Main St., and 2 and 4 Wall St.* je16 tf

Bigelow's Alterative.
A CERTAIN cure for DYSENTERY, DIARRHOEA, CHOLERA MORBUS, and all Summer Complaints. GEORGE W. BEECHER Proprietor, 98 Broadway, New York.
For children who are Teething, and Cholera Infantum, this medicine stands unrivalled. It may be used with perfect safety both by old and young; and when faithfully administered it has never been known in any case to fail of a speedy cure. Unlike other medicines, it corrects the bowels, and often in a FEW HOURS the patient is restored to his accustomed vigor and health.
We append the following testimonials:
I have used "Bigelow's Alterative" in my family, and have never found it to fail, when all other remedies administered by and under direction of Physicians have proved ineffectual. I think it a perfect corrective for Dysentery and all Bowel complaints. GEO. W. BENNER, 47 Wall st. New York, March 22d, 1852.
We can add our testimony to that of others of its great efficacy in our own case, when prostrated to an alarming degree by Bowel disease. It was the only medicine that gave relief, and one now always kept in the family. Editor of the N. Y. Baptist Register. Utica, April 15th, 1852.
"Bigelow's Alterative," advertised in another column of our paper, is, probably, the best cure for Dysentery, Diarrhoea, &c., &c., that has ever yet appeared. We seldom make a point of extolling patent medicines, and for the very good reason that most of them are entirely undeserving of praise; but we have it on such undoubtable and respectable authority, that the above "Alterative" is all, and more than all, it professes to be, that we cannot do less than make mention of it in this way to our readers. All that we ask of the most incredulous in such matters is, to read the *Certificate* embodied in the advertisement, and then, judging from the high standing of the parties (who are thus ready, promptly and publicly to certify,) candidly to say whether a remedy so endorsed, is worthy of attention or otherwise. We have more to say of this remarkable preparation. Editor of Rahway, N. J., Advocate and Register. June 11th, 1852.

This Essence was awarded a silver medal by the American Institute of New York, also a premium by the Franklin Institute of Philadelphia, 1851, in both Institutes the highest premium for such articles.

PATENTS.

American and Foreign Office,

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, *WASHINGTON.*

No. 22 State Street, . . Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of '37.

Having relinquished the Agency for the transmission of Models and adopted a more expeditious mode of sending them to the Patent Office, *whereby a Patent may be procured about six weeks earlier* the continues to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office inventors are saved the time and expense of a journey to Washington, and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally* explaining their inventions, and of consulting in respect to them; *matters, in general, of paramount importance in order to obtain correct specifications and claims.* The experience of sixteen years practice, an extensive collection of rare works, decisions, &c. on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions, patented at Washington, enable the subscriber to afford inventors, desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE, Late Commissioner of Patents.

N. England Truss Manufactory

JAMES FREDERICK FOSTER, MANUFACTURER OF

Ratchet and Spiral Trusses,

467 *Washington Street*, 467, BOSTON.

ALL the various approved trusses constantly for sale. Ladies waited on by Mrs. CAROLINE D. FOSTER, who has had twenty years experience in the business.

Strangers in the city will please take notice the odd numbers and the even numbers are on opposite sides of the street, it being 416 opposite to the subscriber's residence 467, where he will keep a full supply of Ready Made Trusses, for Gentlemen and Ladies, Youths and Infants. Abdominal Supporters of five or six different kinds, and such as Hull's, Chapin's Spinal, Cutter's, Fitch's, Ingall's, &c., &c.

☞ Ladies waited upon by Mrs. Caroline D. Foster at the above place.

The following certificate from Dr. John C. Warren of Boston, was given 16 years since, but will last forever:

BOSTON, January 7, 1835.

Having had occasion to observe that some persons afflicted with Hernia, have suffered much from the want of a skillful workman, in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr J. F. Foster, to supply the deficiency occasioned by the death, of Mr Beath. After some months of observation of his work, I am well satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to those important articles.

JOHN C. WARREN, M. D. Boston.

CERTIFICATE. The following certificate is from Professor Stuart, of Andover Theological Seminary:

The undersigned having occasion to employ Mr. J. Frederick Foster, of Boston, in making and fitting Trusses for the relief of Hernia, takes great pleasure in recommending him to the favorable notice of such persons as may be afflicted with that and similar complaints. Mr. Foster's success in the manufacture, and adapting them to the body, giving ease and comfort to the wearer, surpass (as far as our experience goes,) any other manufacturer of the article.

The numerous testimonials which he has received, together with the recommendations of that eminent surgeon, Dr. J. C. Warren, is a sufficient guaranty for all who may favor Mr. F., that his instruments will give entire satisfaction, and he will satisfy all reasonable demands for an equitable compensation.

BRANT'S INDIAN
PULMONARY BALSAM,

The Great COUGH REMEDY.

Many years of experience, and more than a **Hundred Thousand Cures of Consumptive** Complaints, have proved to the undoubted satisfaction of all persons who have become acquainted with this *wonderful remedy*, that it is **greatly superior**, because it is *soothing* and *healing*, and **more certain to cure Consumption of the Lungs**, than any other Remedy in the world. We know, however, that it is said by some that Consumption can not be cured. Be that the opinion of the many or the few, we shall not attempt to argue with such. But this we *will say*, and do *assert* as a fact, which can be proved in **thousands** of cases, that this medicine **has cured** *Coughs and diseases which, before the cures were effected*, were called **real Consumption**, and which were attended with *symptoms that resembled*, and were in all *respects like the symptoms of those who die*, and *when dead* are said to have *died* with that fatal disease **Consumption.** This Balsam has cured *thousands* of persons who were said to be hopelessly afflicted—with *hard, dry, racking* **Coughs**—*Pains in the* **Breast**, *Side, and Back*—**Difficulty of Breathing**—*Purulent Expectoration*—*Hectic Fever—Night Sweats*—and **wasting away** of the **Flesh** and **Blood.** Persons having such complaints have been cured after it was said they *could not* **live a week** longer. This Medicine has cured some who were supposed to be in a **dying state**, but, by the use of this remedy, they **now live**, and enjoy good health.

This **Balsam** is *purely a vegetable compound.* It is pleasant to take, and *never does injury* in any stage of disease or under any circumstances. It effects is **wonderful** and *almost* **miraculous Cures by Purifying**, *Strengthening*, and **Invigorating** the whole system—by *equalizing the circulation*, and producing a *healthy action*—thus *allaying* **Cough**—*soothing* the **Nerves**—and *aiding and facilitating* **Expectoration.** It Cures the following diseases, viz:—

Consumption,

COUGHS and *Colds, Bronchitis, Asthma, Spitting of Blood, Bleeding at the Lungs, Pains in the Breast, Side, and Chest, Nervousness, Night Sweats, Palpitation of the Heart*, and all **FEMALE WEAKNESSES** and *Complaints arising therefrom*, **Cholera Infantum**, &c.
